

Microsoft Dynamics 365 Sales

A simple and modern solution for your sales

Learn sales best practices and become the partner of choice throughout your customers' buying process. Put your customers at the centre of the action with a pre-configured view, and nurture the relationships that are critical to future development and sales.

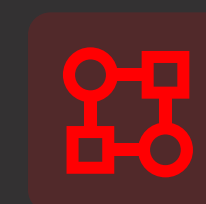

Attract new customers

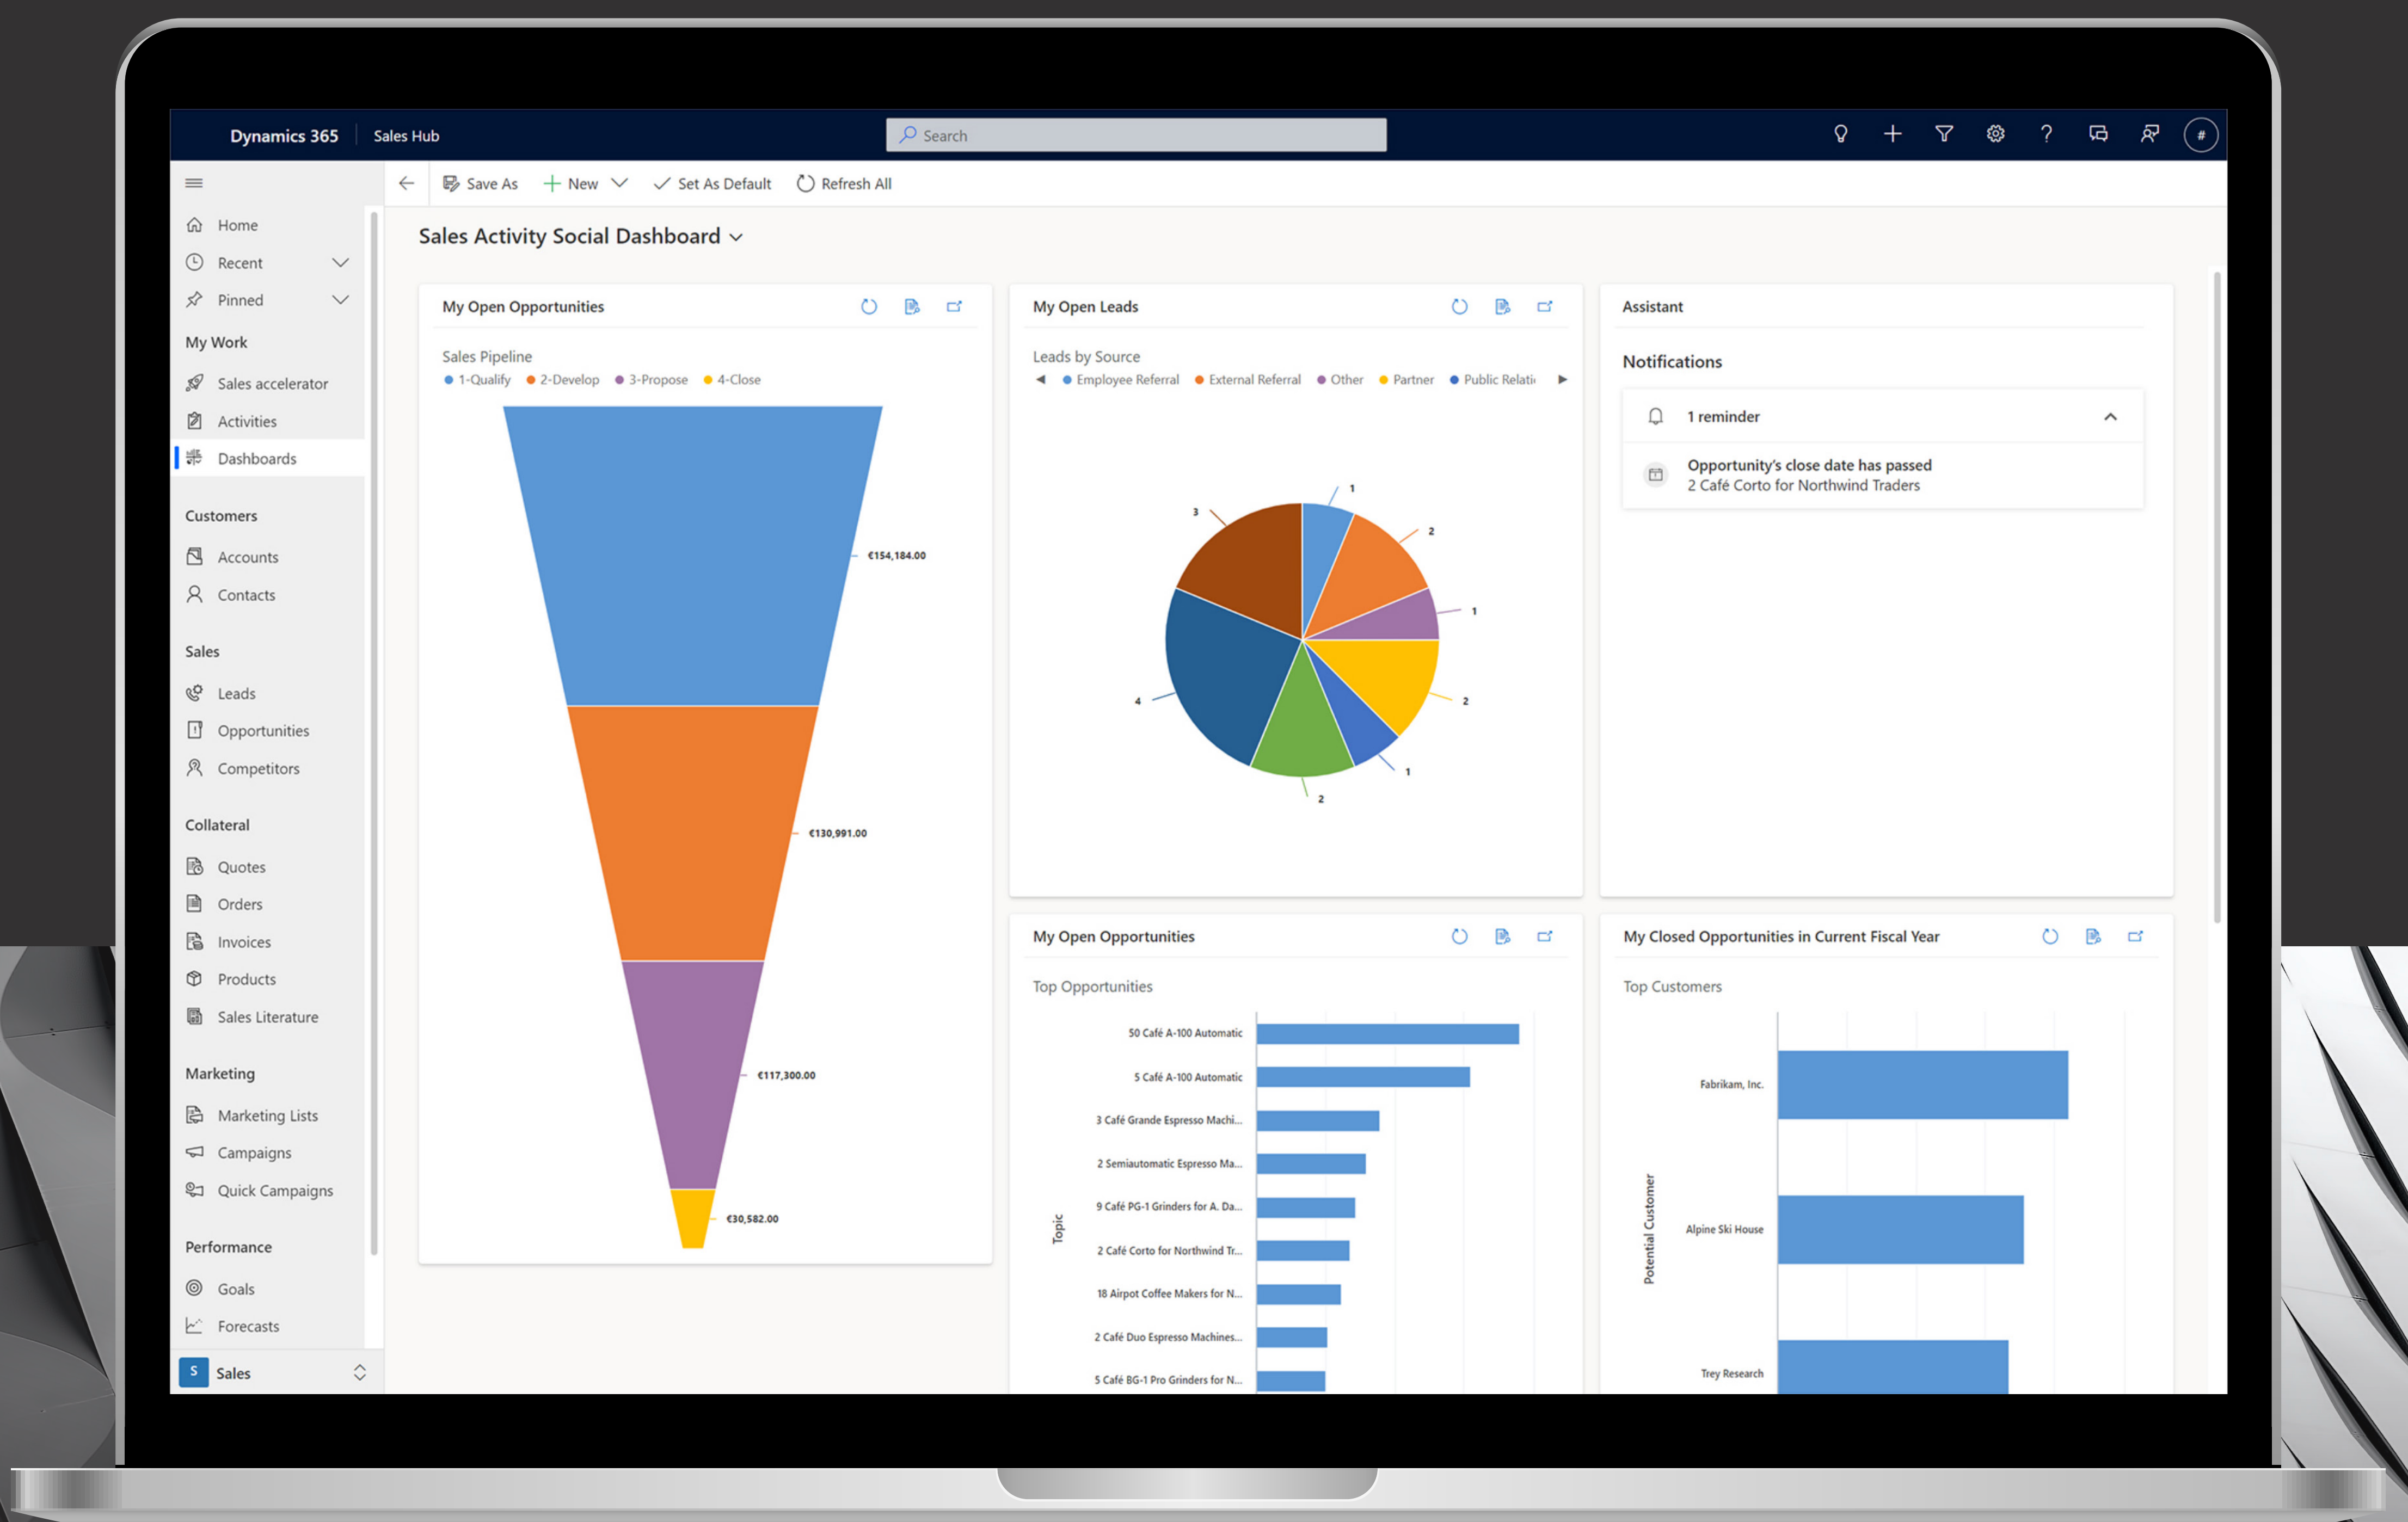

Increase productivity

Improve results

Customised interface

How will the solution help you?

Identify the right customers	Improve the buying process with tailored sales processes to convert prospects into customers more efficiently. Use the Buyer's Journey to track the buying process and communication to help you decide if a potential customer is right for your product or service.
Increase productivity	Connect with colleagues and customers via the integrated Microsoft Teams solution to collaborate or share information and data anywhere, anytime, and complete the sales process with the customer via call, video call, or chat.
Improve results	Make better decisions for your business with real-time data and customised dashboards. Automate processes to eliminate repetitive tasks. Back up your next step or task with applied priority statuses to maintain efficiency.
Customised interface	Create a customised view of the tools you use in your sales department. Save time by using solutions that are connected and complement each other. Use Microsoft 365, Teams and Dynamics 365 Sales to your advantage and give your employees the benefits of a state-of-the-art business.
