

Microsoft 365

Your office in the cloud

A comprehensive software solution for businesses of all types and sizes offers a wide range of useful applications that improve work efficiency and employee collaboration. Tools such as Word, Excel, PowerPoint, Access, Planner, Yammer, Microsoft Teams, SharePoint, OneDrive, and Outlook are powerful solutions that will improve your business.

Secure your data

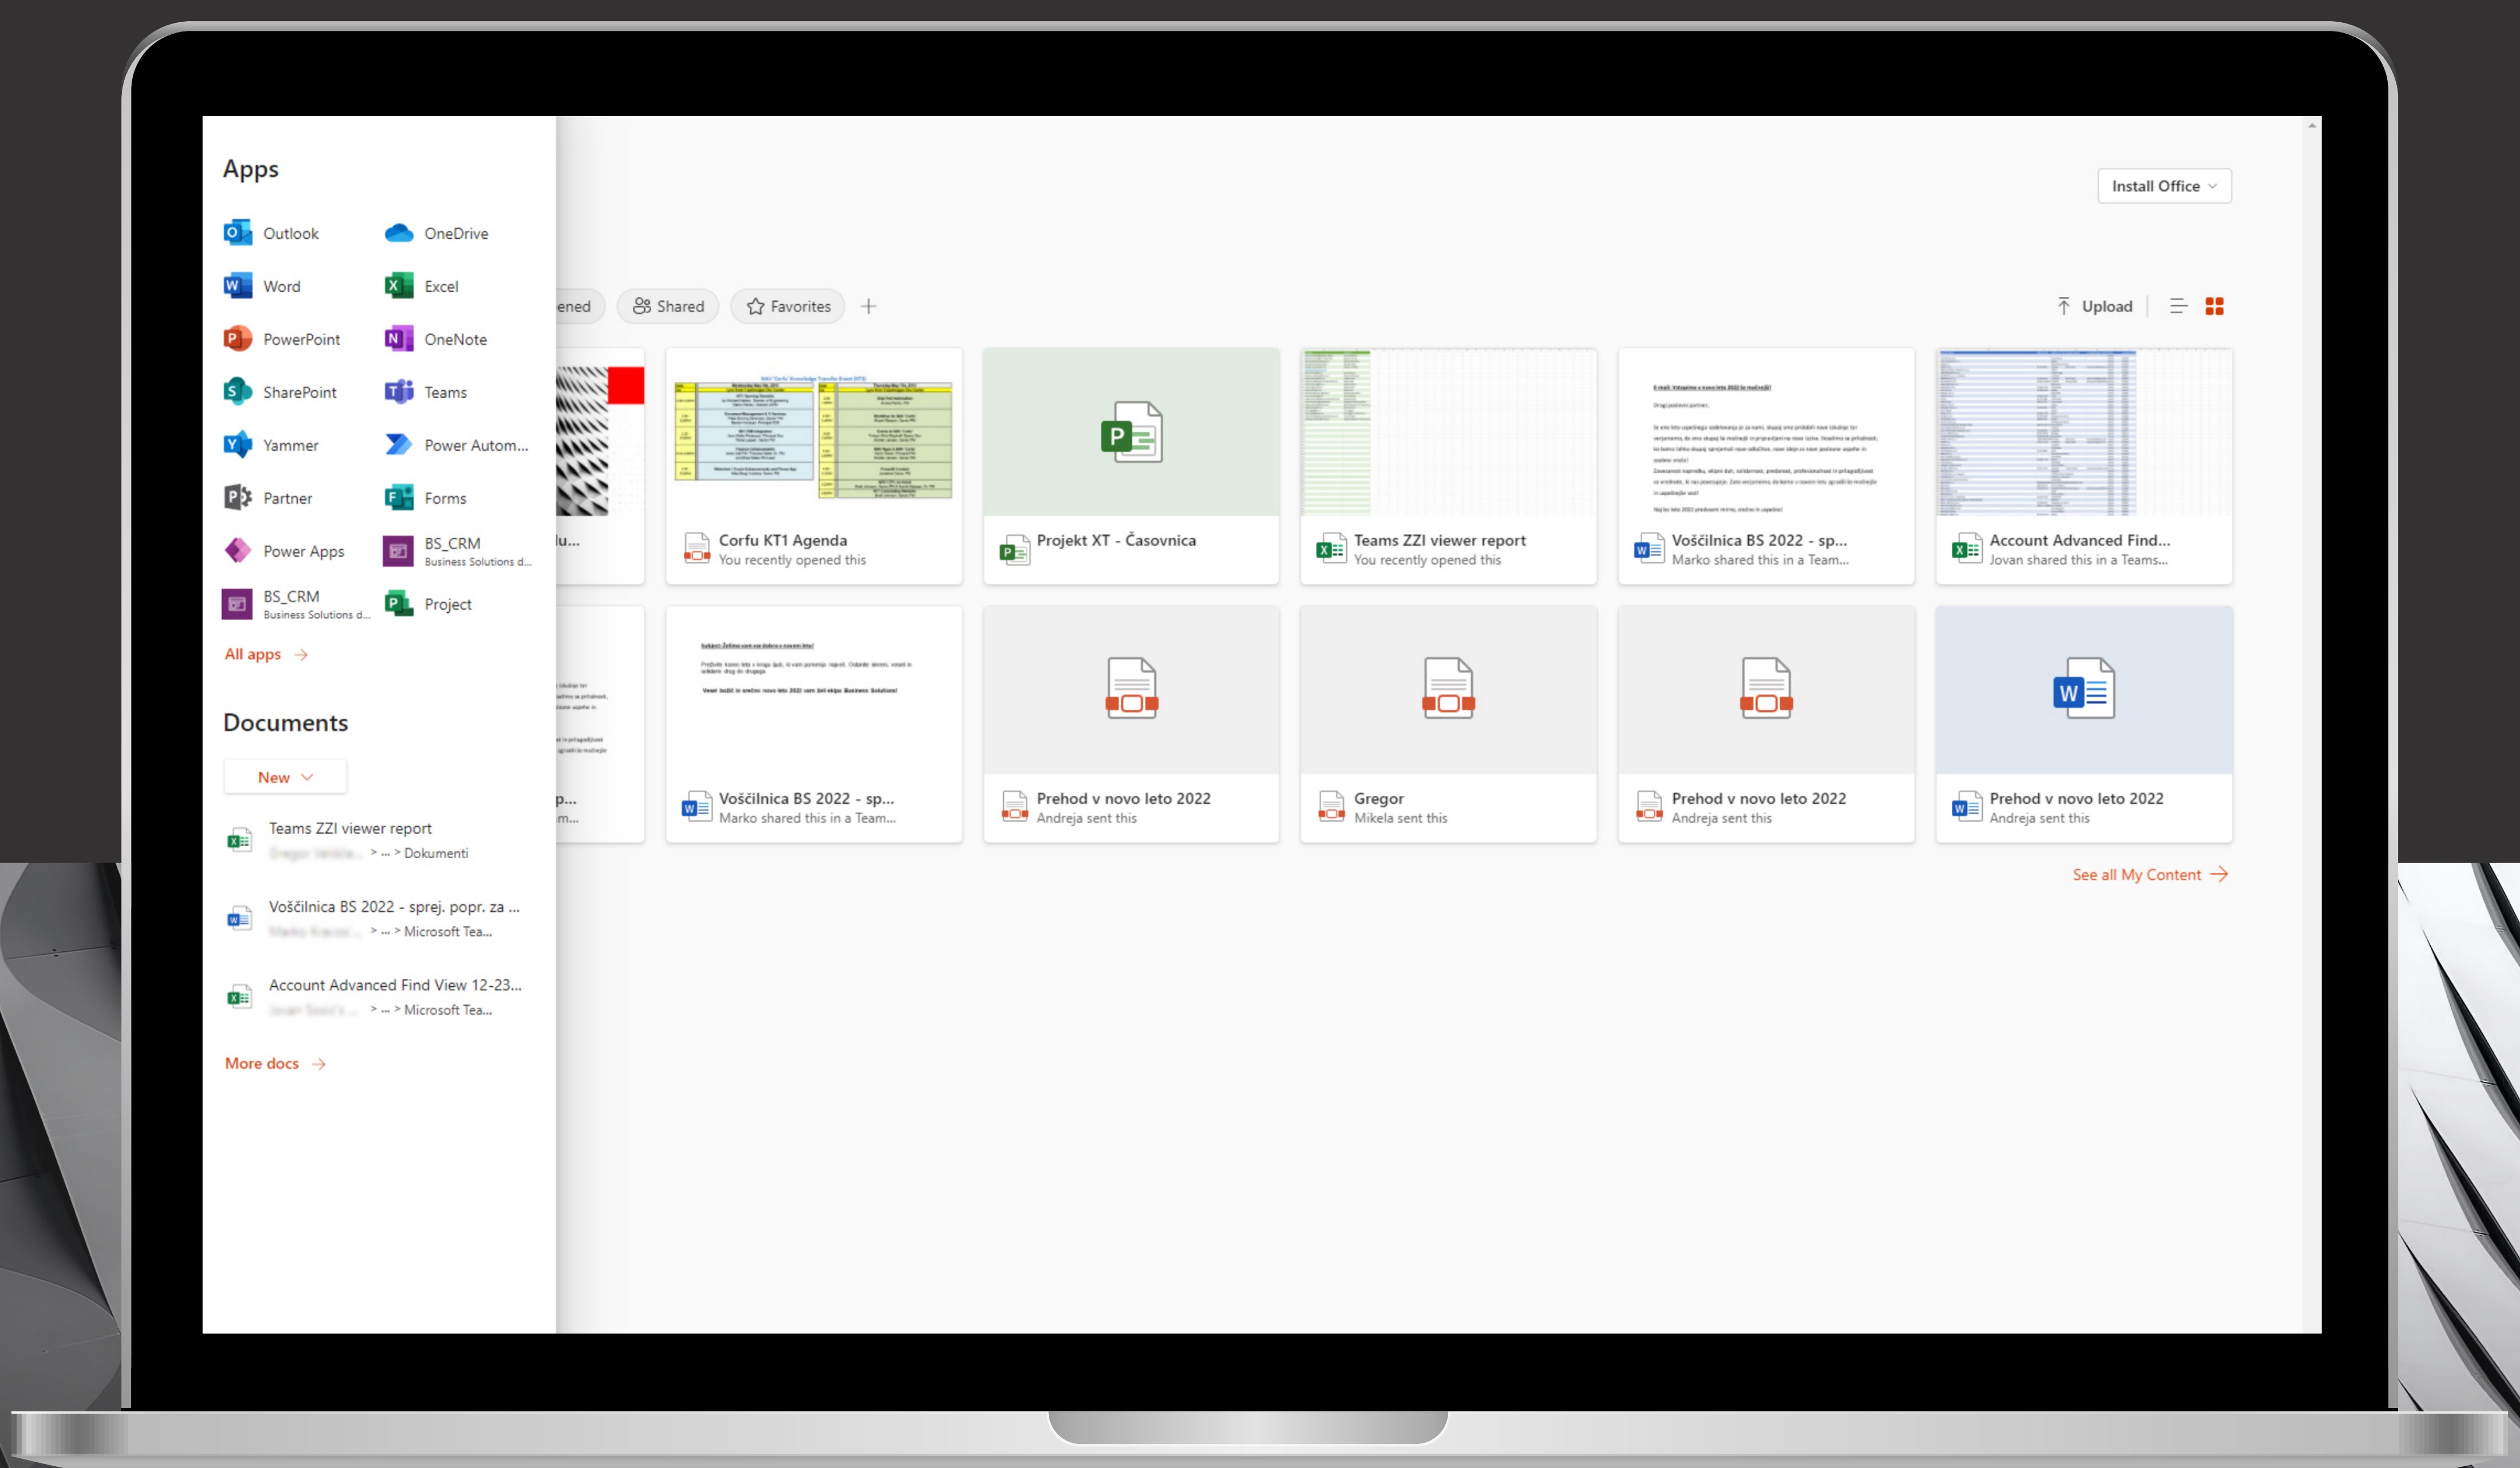

Take advantage of mobility

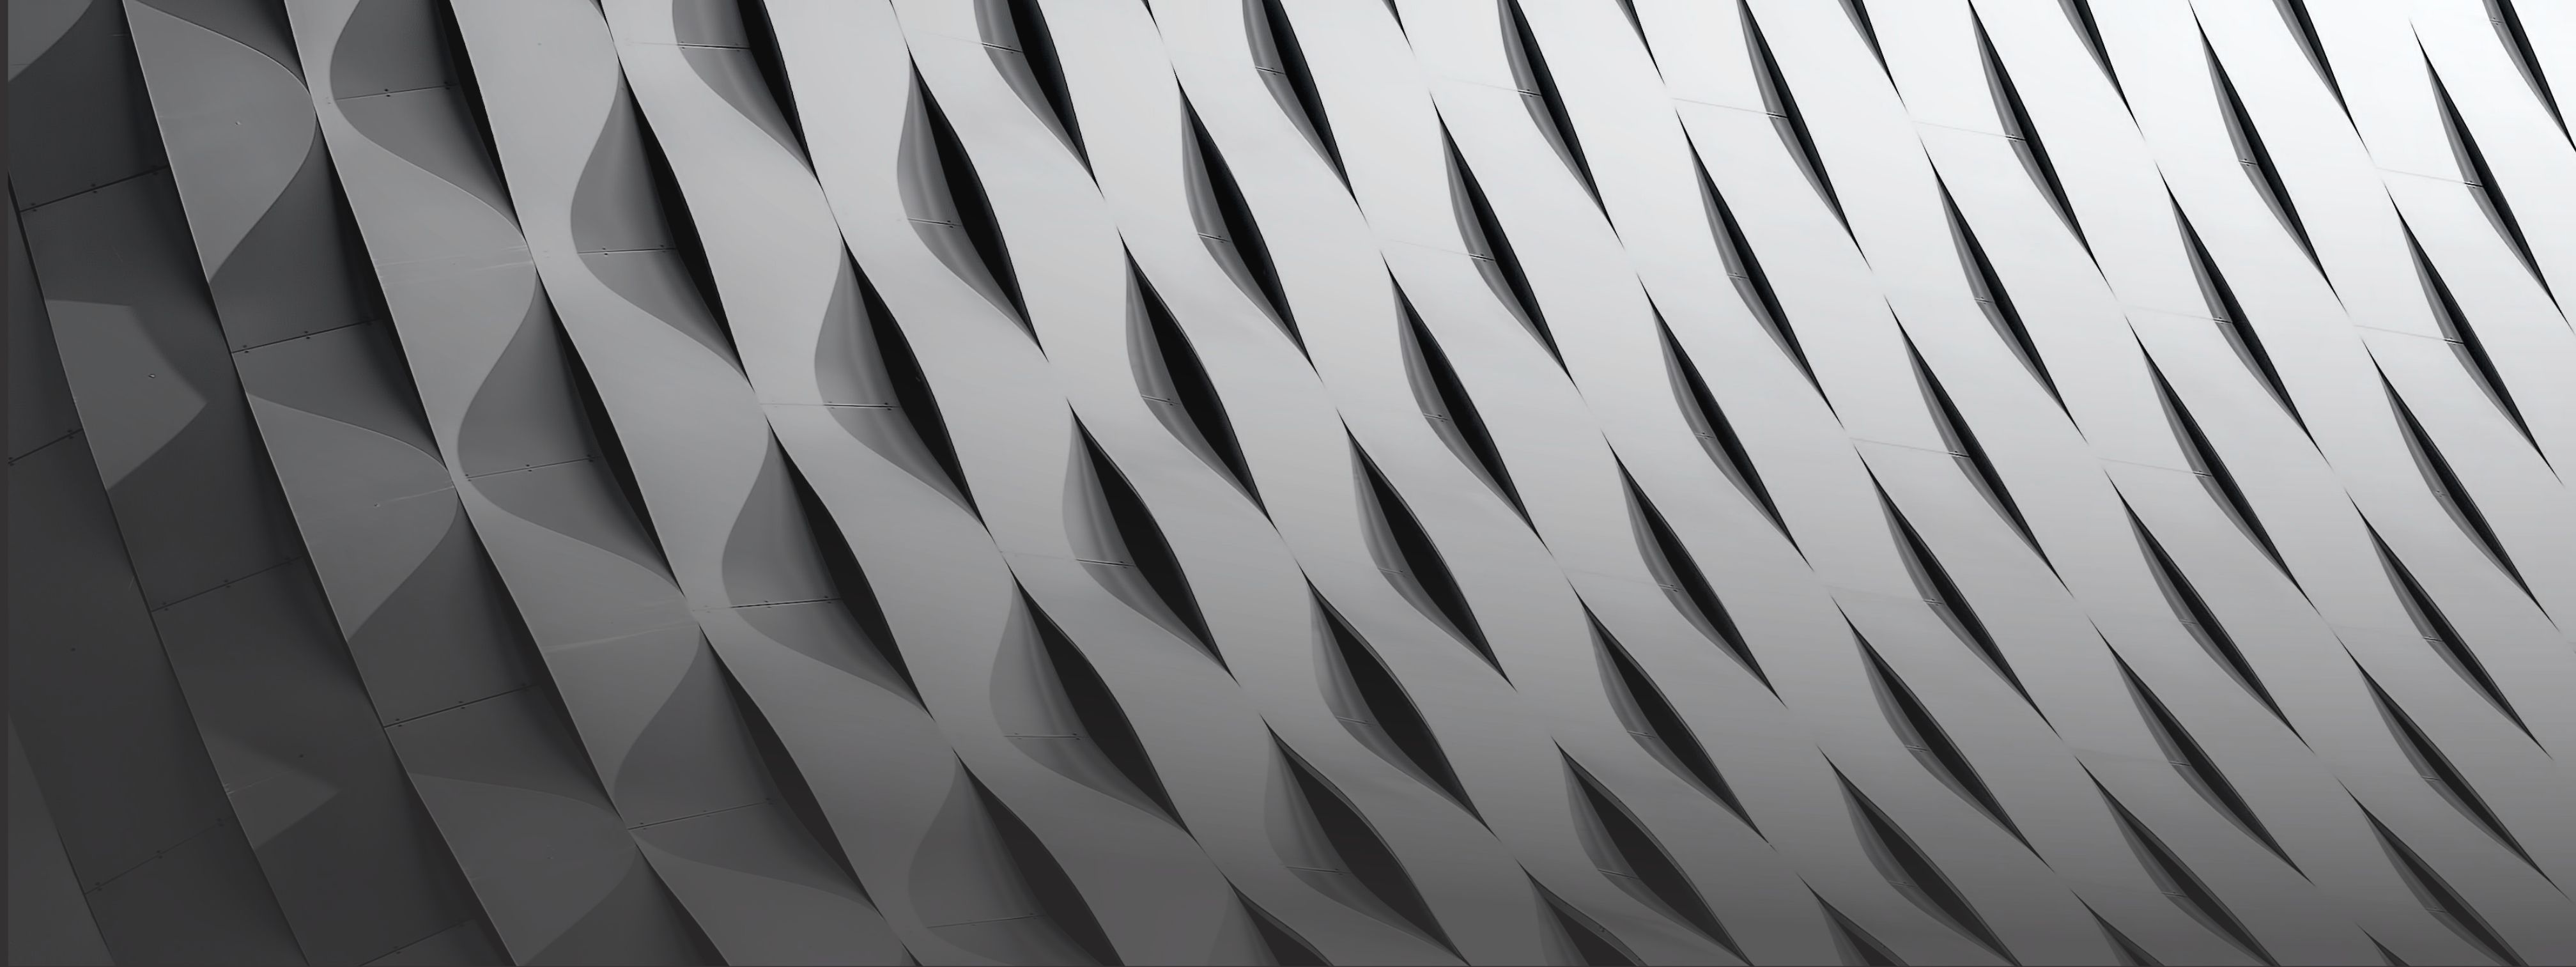

Improve productivity

Create your applications

Project management

Optimise work processes and improve team and organisational collaboration with Microsoft 365 solutions. Use advanced cloud tools that greatly simplify everyday tasks and increase efficiency. Create tasks in the Planner App and keep track of completed and upcoming tasks.

Marketing

Communicate and plan with tools that enable you to communicate quickly and get a clear overview of your planned marketing activities. Get a clear overview of your marketing campaigns with Power BI, which visualises your data directly in the Teams App.

Management

Communicate with your employees, distribute tasks, and get a comprehensive overview of your business. Schedule meetings and video conferences via the Outlook calendar and store documents in a secure and trusted Microsoft environment.

Traditional sales

Improve the speed of internal communication with your teams and ensure your sales people always have accurate and truthful information. Microsoft 365 Document System provides you with a clear structure of documents, contracts, and agreements, making it easier for you to focus exclusively on your customers.
